# HOW TO PURCHASE THIS PACKAGE

## Things you will need:

- A preliminary finance approval letter from your lender stating that you are eligible to borrow the purchase amount
- \$5,000 deposit for the purchase of the land
- \$5,000 deposit for the house construction

If you have the three items noted above we will provide you with a formal quotation for your approval.

**Please note:** This is a house and land package. This means that the house is not built yet. It will be built (with your choice of colours) once you have purchased and settled on the land.
